

Brand Guidelines

VERSION 1.0

March 2026

BRAND IDENTITY

Who We Are

AgentFlow is an AI-powered operations platform built specifically for RE/MAX real estate agents in Argentina. We combine world-class technology with the human, relationship-driven reality of Argentine real estate. Our AI agent handles the entire operational lifecycle through WhatsApp -- the dominant communication channel in the market.

BRAND PERSONALITY

Precision Technology

World-class AI engineering under the hood, built with the same craft as Linear, Vercel, or Stripe.

Argentine Warmth

Rooted in the human, relationship-driven reality of Argentine real estate. Approachable to a 45-year-old RE/MAX agent in Belgrano.

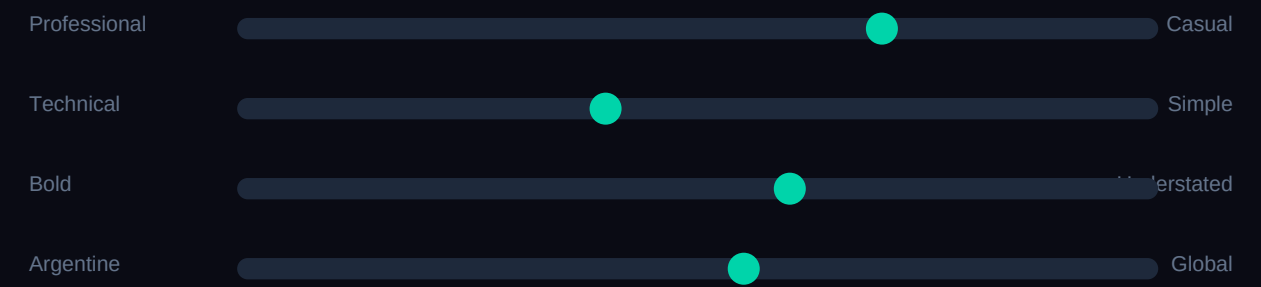

Quietly Confident

Not a flashy startup nor a corporate vendor. Think: the best hire your franchise ever made, who happens to be an AI.

WhatsApp-Native

Works where agents already live. No new app to learn. The AI speaks their language (Spanish es-AR, vos form).

tone spectrum

ONE-LINER (ES)

"Tu asistente de IA que automatiza las operaciones inmobiliarias a traves de WhatsApp."

LOGO

Brand Name Treatment

The AgentFlow logo uses a wordmark treatment: "agent" in regular weight followed by "Flow" in bold with the accent teal color. The "Flow" concept is central to the brand -- it visualizes movement, continuity, and automation.

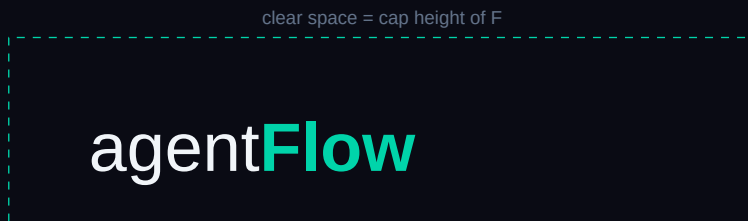

MONOCHROME (ON LIGHT)

PRIMARY (ON DARK)

The logo 'agentFlow' is displayed on a dark blue-grey rounded rectangle. 'agent' is in white and 'Flow' is in teal.The logo 'agentFlow' is displayed on a white rounded rectangle. 'agent' is in dark grey and 'Flow' is in bold dark grey.

CLEAR SPACE

Maintain a minimum clear space around the logo equal to the height of the letter 'F' in Flow. This ensures the logo remains legible and impactful in all contexts.

MINIMUM SIZE

The logo should never be reproduced smaller than 100px wide for digital or 25mm for print. At smaller sizes, the distinction between 'agent' and 'Flow' becomes illegible.

The logo 'agentFlow' is shown in its standard color treatment: 'agent' in white and 'Flow' in teal.

Minimum: 100px / 25mm

LOGO DON'TS

- ✗ Don't change the color relationship (agent must be lighter, Flow must be teal/dark)
- ✗ Don't add effects like shadows, outlines, or gradients to the wordmark
- ✗ Don't stretch, compress, or rotate the logo
- ✗ Don't place the logo on busy backgrounds without sufficient contrast

Midnight Operations Palette

The AgentFlow color system balances dark sophistication with warm, inviting accents. The Electric Teal differentiates from overused purple/blue AI gradients. Warm Amber provides a secondary accent that feels human. WhatsApp Green appears only in WhatsApp-related UI.

BACKGROUNDS

Deep Navy Black

#0A0B14

Page background, hero sections

Warm Dark

#111827

Card backgrounds, alternating sections

Elevated Surface

#1A1F2E

Hover states, modals, dropdowns

ACCENT COLORS

Electric Teal

#00D4AA

CTAs, links, active states, highlights

Warm Amber

#F59E0B

Secondary highlights, notifications

Teal Cyan

#06B6D4

Gradient endpoint, feature accents

TEXT & UI

Off-White

#F1F5F9

Headlines, body text

Muted Silver

Descriptions, secondary

Dim Gray

#64748B

Captions, metadata

Subtle Edge

#1E293B

Cards, dividers

SEMANTIC COLORS

WhatsApp Green

#25D366

WhatsApp elements, confirmations

Soft Red

#EF4444

Error states

PRIMARY GRADIENT

#00D4AA

Teal to Cyan -- Hero gradient, feature highlights

#06B6D4

Rules & Application

01 Accent (Primary) used sparingly

Only for CTAs, active navigation, and critical highlights. Maximum 10% of any viewport.

02 Gradient limited use

Used in hero section and one additional section maximum. Not repeated throughout.

03 WhatsApp Green is contextual

ONLY on WhatsApp mockup elements and WhatsApp-specific feature mentions. Do not use as general accent.

04 Body text: Off-White only

Always #F1F5F9 on dark backgrounds. Never pure white #FFFFFF (too harsh for dark themes).

05 Card styling is consistent

Cards use #111827 background with 1px solid #1E293B border. Hover state elevates to #1A1F2E with subtle teal glow.

06 Contrast ratios are non-negotiable

#F1F5F9 on #0A0B14 = 15:1. #94A3B8 on #0A0B14 = 7:1. #00D4AA on #0A0B14 = 8:1. All exceed WCAG AA.

DO

- + Use Electric Teal for primary CTAs
- + Use dark backgrounds (#0A0B14, #111827)
- + Use gradient sparingly for visual interest
- + Use Warm Amber for secondary highlights
- + Maintain 4.5:1+ contrast for all text

DON'T

- ✗ Use purple or blue gradients
- ✗ Use white (#FFFFFF) backgrounds
- ✗ Use WhatsApp Green as general accent
- ✗ Mix brand colors with off-palette colors
- ✗ Use light theme or pastel backgrounds

TYPOGRAPHY

Type System

DISPLAY / HEADLINES

Satoshi

Weights: 400 Regular | 500 Medium | 700 Bold
Source: fontshare.com | Fallback: system-ui, -apple-system, sans-serif
Character: Modern geometric sans with personality. Not generic, not quirky.

BODY / UI

General Sans

Weights: 400 Regular | 500 Medium | 600 Semibold
Line height: 1.6 for body, 1.2 for headlines
Character: Clean, highly legible at small sizes, slightly rounded for warmth.

TYPE SCALE (DESKTOP)

Element	Size	Weight	Line Height	Font
Hero headline	64-80px	700 Bold	1.1	Satoshi
Section headline	40-48px	700 Bold	1.2	Satoshi
Sub-headline	24-28px	600 Semi	1.3	Satoshi
Body large	18-20px	400 Regular	1.6	General Sans
Body regular	16px	400 Regular	1.6	General Sans
Caption / Meta	14px	500 Medium	1.5	General Sans
Overline / Label	12-13px	600 Semi	1.4	General Sans

FONTS TO AVOID

- x Inter -- too generic, default for every SaaS
- x Space Grotesk -- overused in AI/tech products
- x Arial / Roboto -- lack personality, feel corporate
- x Any serif fonts -- doesn't match the brand aesthetic

MOBILE: Headlines scale to 60-70% of desktop. Body stays at 16px minimum. All spacing uses 8px base grid.

BRAND DIRECTION

Aesthetic & Visual Identity

"Linear meets WhatsApp"

The page should feel like a premium dev-tool landing page (dark, precise, animated) that reveals a warm, human product underneath. The contrast between sophisticated presentation and approachable product is the design tension that makes it memorable.

DESIGN PHILOSOPHY

"Precision technology with Argentine warmth."

WHAT MAKES AGENTFLOW UNIQUE

1

WhatsApp as Hero Visual

Not a generic dashboard screenshot. Show the AI having a real conversation in a WhatsApp-accurate UI mockup.

2

Flow Animation

A continuous flowing line/particle trail that connects sections, representing the 'flow' of automated operations.

3

Split Personality

Dark tech sophistication for the page chrome + warm WhatsApp green bubbles for the product demonstrations. The contrast IS the brand.

DESIGN REFERENCES

Linear.app	Gradient mesh backgrounds, precision typography, radial glow effects
Vercel.com	Hero with ambient gradient animation, tech logo bar, CTA confidence
Superhuman	Bold metric in headline, premium dark aesthetic, feature breakdowns
Raycast	Spotlight-style glowing elements against dark backgrounds, smooth motion

MOTION PRINCIPLES

- All animations use transform and opacity only (GPU-accelerated)
- Section entrance: fade up + slide 20px, 0.6s, cubic-bezier(0.16, 1, 0.3, 1)
- Staggered children: 0.1s delay between each, 0.4s duration
- Always respect prefers-reduced-motion
- Card hover: scale(1.02) + border glow, 0.2s ease

System & Standards

8PX BASE GRID

xs	4px		Tight inline spacing
sm	8px		Component internal padding
md	16px		Between related elements
lg	24px		Between groups
xl	32px		Section internal padding
2xl	48px		Between sections (mobile)
3xl	64px		Between sections (tablet)
4xl	96px		Between sections (desktop)
5xl	128px		Hero section padding

Max content width: 1280px centered. Hero backgrounds extend full width.

RESPONSIVE BREAKPOINTS

Mobile	<640px	Single column, stacked, hamburger nav, centered hero
Tablet	640-1024px	2-column grids, side-by-side hero
Desktop	1024-1440px	Full layout, all animations active
Wide	>1440px	Content max 1280px, backgrounds full width

ACCESSIBILITY (WCAG AA)

#F1F5F9 on #0A0B14	15:1	Body text on dark background
#94A3B8 on #0A0B14	7:1	Secondary text on dark background
#00D4AA on #0A0B14	8:1	Accent on dark background
#64748B on #0A0B14	4.6:1	Tertiary text (large text only)

- + All interactive elements keyboard accessible
- + prefers-reduced-motion support for all animations
- + Semantic HTML: <nav>, <main>, <section>, <footer>
- + aria-labels on icon-only buttons
- + Focus visible styles (2px solid teal, 2px offset) on all interactive elements
- + Heading levels logical: h1 in hero, h2 for sections, h3 for features
- + Font loading with font-display: swap
